

Cardno is a professional infrastructure and environmental services company, with expertise in the development and improvement of physical and social infrastructure for communities around the world. Cardno is implementing USAID-funded Competitiveness Systems Strengthening Activity (CSS) in Serbia. The purpose of the CSS activity is to enable Serbian small and medium sized enterprises (SMEs) to upgrade and become more competitive in local, regional and international markets. This will be achieved through one main objective, which is to increase the competitiveness of selected value chains (VC) in the food processing sector with a focus on aggregate sales, exports and jobs. The CSS Activity will identify gaps in the current competitiveness system and strengthen these systems through capacity development and the facilitation of partnerships among system actors, leveraging these advances to improve productivity and competitiveness.

We are looking for

talented and ambitious final year students or recent graduates of Agriculture, Economy, Technology, Business or Organizational Science to apply for the
